Family Max			\$ 515.00	\$ 430.00	\$ 645.00	\$ 3,655.00

### Registration Fees

Our registration fees are annual, and will be billed in late September. They will appear on your September PRO Club statement.

### Training Fee Payment Options

The team views training fees as a seasonal decision, so please understand that the three options described below are intended to give families choices with how they pay the training fees for our season which runs from early September to late July.

#### Season in 10

You'll pay training dues starting in October, and will pay a total of ten payments until the end of the season, including July. This option gives you the flexibility to take a month or two off from training, and we will suspend the training fees, so long as you give us notice by the 15<sup>th</sup> of the month prior to the break. This is stated in registration paperwork. Swimmers will be able to return to their scheduled training group. However, a scheduled break of more than two months will cause the swimmer to lose their training group protection and make that space available for swimmers on the waiting list.

#### Season in 6

This payment option is intended for those swimmers who do not foresee needing to take any time off of training during the season. You'll pay your total season's training dues starting in October and ending in March, six total payments. Built into this payment option is a saving's of 10%. For example: Season in 10 fees of \$100 for October-July and is \$1,000 in total. Applied to the Season in 6 payment option, this becomes \$150 for October through March and is \$900 in total.

#### Season in 1

This payment option is intended for those swimmers who do not foresee needing to take any time off of training during the season. You'll pay your total season's training dues starting in October in one payment. Built into this payment option is a saving's of 15%. For example: Season in 10 fees of \$100 for October-July and is \$1,000 in total. Applied to the Season in 1 payment option, it is one payment of \$850.
